ABOUT MYSELF

I'm Argho Biswas from the serene town of Gopalganj, Bangladesh. Currently, I'm pursuing my passion for technology as a student of Computer Science and Engineering at KUET. From an early age, I found myself fascinated by the logic and creativity behind computers — how a few lines of code can bring an idea to life. This curiosity has grown into a deep desire to explore the endless possibilities of technology. Whether it's designing algorithms, building software, or simply understanding how systems connect our world, I'm always eager to learn more. I believe that engineering is not just about solving problems — it's about dreaming big, building the future, and leaving a meaningful mark. Every day, I strive to grow not just as a student, but as a thinker, a creator, and someone who hopes to contribute positively to the tech-driven world around us.

EDUCATION AND TRAINING

Studying BSc in Computer Science and Engineering

Khulna University of Engineering & Technology [28 Oct 2024 – Current]

City: Khulna | Country: Bangladesh | Website: <https://kuet.ac.bd/>

Science

Bangabandhu College, Gopalganj [24 May 2021 – 8 Oct 2023]

City: Gopalganj | Country: Bangladesh | Website: <https://www.gbc.edu.bd> | Level in EQF: EQF level 4

SKILLS

programming / problem solving

PROJECTS

[1 Dec 2024 – 1 Feb 2025]

Canteen Automation System

I, along with my teammates, made a simple canteen automation software using the C language as our semester-ending project. Some useful features, like self-ordering, checking available food items, and an automated bill payment system, were included in the program.
